Meet **Max\*Ability Team.**

Meet *Freedom.*

**Hi.** We're the Max\*Ability Team. While at home, have you or your loved one ever...

- Wanted to move through the bathroom or front door with more confidence and ease?
- Wanted an area of your home to be safe and harmonious for your child to play and grow?
- Wanted to eat together in a way that promotes family bonding?
- Wanted to perform personal cares on your own with dignity?

If you answered yes to any of these questions, please contact us because *we exist to serve you*, to bring you freedom to participate in life more fully, more freely, and more safely.

It's time for *Freedom.* We can help.

### **3 Ways to Freedom:**

We call them our Tiers of Service, you can call them steps to freedom.

**TIER ONE:** Evaluate the home/work & make therapeutic, safety & accessibility recommendations.

**TIER TWO:** Tier One, plus implementation of the recommendations.

**TIER THREE:** Consult with organizations & professionals regarding therapeutic & accessible environments.

freedom

**What We Do:** We (Max\*Ability Team) evaluate home environments and implement accessible design solutions to *maximize* safety, meaningful participation, and accessibility for our clients... ultimately, to bring our clients *freedom*.

freedom

### **Our Mission...**

...is to bring you *freedom*.

*Our mission is to do this by collaborating with a “team” of experts (including the client as the key expert) to evaluate for and create safe, therapeutic, and accessible environments that meet the needs of our client and **maximize the ability to participate in life.***

### **The Team:**

*You, our Client.*  
Occupational Therapists  
Physical Therapists  
Speech Therapists  
Medical Equipment Specialists  
Assistive Technology Specialists  
Work Site Analysts  
Innovative Design Specialists

### **Why Choose Us?**

You get recommendations for and access to a wide range of safety, therapeutic, and accessibility products to increase your independence at home *and* make it more comfortable.

You get an end-result of a space or environment designed for multi-sensory needs (including for people with Alzheimer’s, autism, low vision, etc.)

Your home or business can become wheelchair accessible, with true meaning, not just ADA (American’s With Disability Act) recommendations.

You get solutions to the environmental obstacles that are physically challenging.

You get a resource (MaxAbility Team) that can work with/for Case Managers.

Your daily road blocks in the business, at leisure or at home are minimized.

Your home environment becomes suitable to all family members.

You get service from a team that is credentialed by the National Home Builders Association as CAPS (Certified Aging in Place).

You get more peace of mind, and less complexity when managing the design and completion of a home renovation, installation or remodel.
